DIARY

1915

DERRY, NEW HAMPSHIRE

For Reference

Not to be taken from this room

Friday, January 1,

I telephoned to John C. Chase to meet me at the bank at nine o'clock to consult with James H. Weston and our attorney John R. McLane, on the Nutfield Savings Bank suit with the former treasurer, R. W. Pillsbury. We spent the morning in conference and determined to follow the plan hitherto adopted, of having the case tried in the next term of the superior court which sits at Exeter, N. H. about January 21st. The savings bank should not be made to suffer loss.

Saturday, January 2.

Spent the forenoon at the bank, also had a market basket and brought home many articles wanted as lard, cornmeal, cream of wheat, saxon wheat, oysters, etc. Mrs. Mac-Murphy went over town on business, she brought me a very small diary. Tonight I returned to the store and exchanged the small diary for this, giving twenty five cents more for this. I have thus walked over the road four times today and think I have had enough exercise. Mr. and Mrs. McGregor were in Chester today.

Sunday, January 3,

Mrs. MacMurphy, Dean and I walked to church. Mrs. MacMurphy rode by trolley. I assisted Mr. Haslam in the celebration, he preached the sermon. Attendance fair, there were nineteen who took communion. Sunday school followed. Dean visited her home for the afternoon and reached the village again at six. I did not go to evening service, but remained by the cheerful radiator and electric light and read the Sunday Post. The winter evenings are very pleasant for reading, and we find our electric light bill is pretty high now.

Monday, January 4.

Walked to the bank and spent nearly two hours on reports and business. Came home for lunch. Went down to school house with a couple of men to find out why the furnace is not giving out heat enough to allow the sessions of school. I think the janitor is too old and incompetent. I went by trolley to the Adams farm, gave my ward \$25.00, paid Josie \$81.01 on account of groceries and other family supplies for the past two months. Charles McGregor was here, I loaned to him my History of Londonderry, published by the Rev. Edward L. Parker.

Tuesday, January 5.

Walked to the bank and spent an hour looking at statements. At market bought meat for mince pies. Went to John Anderson for one thousand cigars he had provided for me, he had another thousand for his own use. At night I attended the annual meeting of St. Mark's Lodge, there was reading of yearly reports, election of officers and installation of each. I acted as Grand Chaplain in the installation. Deane spent the evening at the Gilman's with Leora and Rita.

Wednesday, January 6.

Walked over town, a sloppy sidewalk. Spent some time arranging for the meeting of the two bank committees. I hunted up Mr. Whitney and he promised to be at the bank at two o'clock. Mr. Gordon, I found by telephone and Mr. Proctor has gone to his farm. After lunch, I had better success, and we met at the bank and checked up the securities in both the National and Savings Banks. It was about five o'clock when the work was done and reports signed. I read "The Story of Dartmouth" aloud to my family.

Thursday, January 7.

When I awoke, rain was falling heavily and I thought we would have a wet day, but soon the clouds dispersed and clear sky appeared. I was at the bank during the morning. Most of the snow disappeared with the mercury rising to 40 degrees. Mrs. MacMurphy was at the Woman's Whist Club at Mrs. N. G. Head's house in East Derry. Mr. and Mrs. McGregor attended a large G. A. R. and W. R. C. meeting at West Derry. They seem to be happily engaged in writing a book of genealogy with the intention of publishing it.

Friday, January 8.

Spent an hour at the bank paid telephone bill for December, \$2.54, paid Derry Electric Co. for light for December, \$4.78, rather large bill. At 6:22 p. m. took trolley for Manchester, attended with full dress and regalia, a visitation of Trinity Commandery Knights of Templar. There were 164 in full dress and about a dozen without uniform, work, the degree of the Temple of Knights from Derry included. There was a fine banquet, and we came away at eleven o'clock.

Saturday, January 9.

Usual morning work at the bank, I managed to write an apologetic letter to Emily S. Hall, 106 West Concord St.. Boston, Mass. After reaching home I had a telephone and telegraph call to this effect: "Your new grandson arrived this morning, everybody doing well, signed Jerome." I walked over town a second time and bought a white sheet. Mrs. MacMurphy was away in the afternoon at a meeting of the D. A. R. at Mrs. B. F. Low's home. We are in the library reading, sewing and writing in the library this evening.

Sunday, January 10.

We went to church by trolley, three of us. I assisted in morning Prayer at 10:45 service. Mr. Haslam preached. Deane went to her home after the Sunday School. Mrs. Mac-Murphy and I came home and had dinner of oyster stew and apple pie, bread, butter and tea. At night I walked to church and assisted at 6:30 evening prayer, then we had rehearsal of the choir, music for next Sunday. Then I had supper at the Rectory with Rev. and Mrs. Haslam, his brother Greville Haslam and Montford Haslam, also had a Scotch and home.

Monday, January 11.

Twice I walked over town today, the dry roads and sidewalks are favorable to this kind of locomotion. Mr. Charles McGregor was here for lunch and remained some hours. He taught Mrs. MacMurphy how to play High-low-Jack. She thinks it an interesting game. I visited the selectmen's office in search of school funds and have promise of cash tomorrow. I mailed postal card to each trustee of the Nutfield Savings Bank, notifying them of the annual meeting tomorrow afternoon at four o'clock.

Tuesday, January 12.

Spent an hour at bank in the forenoon, and four hours and half there in afternoon. Annual meeting of stockholders at the First National Bank where I was elected Vice President. Annual meeting of Trustees of the Nutfield Savings Bank where I was elected Treasurer and given the additional office of Clerk. The business was very thorough in both meetings but especially in the National Bank. Mrs. MacMurphy has gone to a Guild meeting this evening.

Wednesday, January 13.

Snow storm early: four or five inches, melted half away, cleared in afternoon. I went to John C. Davis, collected interest, went to bank for an hour, making up minutes of yesterday, bank meetings, did not finish the work. Called on School Board to get orders to pay a note and interest at the bank, \$1682.10. The year will find a balance on hand as appears to me now. The treasurer's report must be balanced about February 15th to be printed before Town Meeting, that comes in March.

Thursday, January 14.

I was at the bank in the forenoon and again in the afternoon. Mrs. MacMurphy was at the Rectory for tea and the evening, I attended R. A.M. Chapter meeting at night as chaplain and organist. Three Hampstead men, Randall, Bailey and Frost received M. E. M. degree. Two visitors Davis a teacher and Oaks a lawyer. Neither has been in town very long. I signed recommendation of an Emerson to take Royal Arch Chapter degrees and he was elected.

Friday, January 15.

Visited both bank and transacted considerable business. I had six school orders to pay, including the drawing of checks and taking receipts for about fifteen hundred dollars. I saw my sister at one bank where she was putting in some money to supply the means of drawing checks. She wants me to go to Lawrence and Lowell with her some day to get interest put on her bank books. It must be three or more years since we last went to those cities for that purpose. Very mild weather.

Saturday, January 16.

Carpenters working at the bank to make more room for the officers. I did not stay long there this morning. Bought a five pound chicken and some other things at the market. When I was at home I found Mrs. Chase would entertain to supper on Monday instead of Mrs. MacMurphy, Rev. and Mrs. Haslam and the brother. We are to go there for supper and so I took the chicken to Mrs. Chase. I found her and her husband at their home this evening.

Sunday, January 17.

Cloudy with showers. Three of us went to church by trolley. I assisted in Morning Prayer and preached the sermon. Mrs. Mac Murphy and I came home after service. Deane remained for Sunday School and then went to her home for the afternoon. She was back here before six o'clock. I went to evening service and assisted, also sang in the choir practice afterward. Then I went to the Rectory and had supper with Rev. and Mrs. Haslam and his brother. Spent an hour after supper in conversation. I have returned home at ten o'clock.

Monday, January 18.

Spent forenoon and afternoon at the bank signing, addressing, and stamping some hundred of circulars for distribution among all classes of people who may be induced to save money and put it in the bank for Christmas, etc. At six dressed and went with the wife to our daughter's house for supper with Rev. Haslam and his brother. We played auction bridge afterwards and had light refreshments at eleven o'clock. I am home at 12.

Tuesday, January 19.

Spent forenoon and afternoon at the bank, signing and addressing Christmas Club circulars. It has been a warm day, about 60 degrees most of the day and not much cooler at night. Rev. Haslam and brother were here for veal roast at six and then we played auction bridge till half past eleven, had some applecake and Clicoquot Ginger Ale. We talked some about my stay in Baltimore in 1878 and the books I have that I bought there in a second hand bookstore, "Letters of Jamin" and "The Rambler".

Wednesday, January 20.

Another day at the bank, spent in signing, addressing and mailing circulars concerning the Christmas Club plan for saving. I am not very enthusiastic about the movement, but am willing to give it a good trial. Mrs. McGregor called at the bank and gave me some hay money. She went to the city on the 11:22 trolley. There was a bond and stock agent here at noon when I arrived. He wished me to buy "Manchester Traction" at 132, paying 8 percent. It is not legal for savings investments.

Thursday, January 21.

Spent only the forenoon at the bank. Mrs. MacMurphy went to the Holmes residence for afternoon whist. There were six tables and after games there were dainty refreshments served. The day has been clear but rather cool for comfort. My Racine taxas amount to \$150. just a little lower than last year. My ice bill for summer, I paid yesterday, it was \$11.00 for 4425 pounds. We used ice freely and for a long season. I read aloud to Mrs. MacMurphy and Deane this evening from "Saturday Evening Post."

Friday, January 22.

Spent an hour at the bank in the forenoon, afternoon and evening given to making an index to a manuscript book of letters, dates, facts and history. Only personal names are included in the index and of these there are many several hundred. I am rather fond of making alphabetical indexes. I began twenty years ago when I made so many grave yard lists for Willeys Book of Nutfield and the general index at the end of the book. I have made a dozen indexes since that first successful work.

Saturday, January 23.

At the bank in forenoon. Christmas Club plan is being started with promise of success, but it makes much additional book-keeping. In afternoon I spent my time making the new index to copy book of finely written lines on nearly a hundred pages, counting pages of the index, the book will have more than a hundred pages. Mrs. MacGregor telephoned soon after supper and said Mr. MacGregor had already gone up stairs to bed. It was not later than seven o'clock, but I think he counts on a long life and old age.

Sunday, January 24.

We went to church, except Mrs. Mac-Murphy. I assisted in service. Mr. Haslam preached. After Sunday School Deane went to her home and I came back for dinner with Mrs. MacMurphy. She complains of pain in a foot, and does not know what will cure it. I went to church at night, had supper afterwards at Rectory, and a glass of "The Lords of England" in a black bottle. I suppose this is an important article of high potentiality. Saw some automobiles on the streets, the weather is comfortable.

Monday, January 25.

Spent forenoon and afternoon at the bank. New depositors coming in fast. I borrowed \$300.00 at the other bank for taxes, my Derry taxes are \$315. and my Racine taxes \$149.76. Davis, Emerson, Young and myself, directors held an interview on loans. I took out Christmas Club cards for myself up and reverse 5 cents weekly amounting to \$108.10 for Mrs. MacMurphy; cards 2 cents up and reverse amounting to \$41.64 and for Myrtle Deane Hosley 2 cents up amounting to \$20.82 72 cards out the first day of opening. I finished my index of names this evening.

Tuesday, January 26.

The morning I spent at the bank, sending off my draft for paying current taxes on my two houses in Racine, Wis., 920 Park Ave., and 1131 Villa St., \$149.76. I went to the market and bought pork chops, ten pounds white sugar and three cans of soup. I walked both ways. In the afternoon I had a visit from Miss Anna Rogers who wished to talk of her plan to give her two sisters and brother each \$500.00 to quit claim the farm to her. There is also to be divided a timber lot and some money and household stuff.

Wednesday, January 27.

The usual trip to the bank, on the way I visited my house on East Broadway to see the cause of a leak in a hot water faucet. When I came back I brought a red washer and had Mr. Whitney put it in place, after which there ceased to be any leak. This saving was worth half a dollar, perhaps more for very likely a new faucet would have been advised by the plumber. I have heard from the McGregors. Jennie was trying to learn how to cook tripe in a manner to satisfy the taste of her husband.

Thursday, January 28.

I was at the bank in the forenoon. I went to market and brought home some pickled tripe, we have not had any tripe for years. I bought shredded wheat bisquits, two boxes, some malted breakfast food, vanilla and yeast. Mrs. MacMurphy was at the regular meeting of the Derry Woman's Club this afternoon. They turned out over one hundred, and had fine refreshments. Marguerite E. Clark read an essay on music, and had four boys and four girls there to illustrate the method of teaching. The days are much longer and winter less dreary and dark.

Friday, January 29.

Spent an hour at the bank, mailed a few circulars, and looked at the deposits of both National and Savings. Mr. Young told me he had introduced a bill for the bank commission to grant a charter for a cooperative bank here to encourage the building of more houses in Derry, cheap stock.. Tonight we went to hear "Peg O' My Heart" given by a reader. It was very good. The money received from sale of tickets is devoted to the District Nurse Association and as there was a good attendance, the benefit is large.

Saturday, January 30.

About 300 have joined the Christmas Club at the bank. It is an experiment of doubtful value to the bank, but the expectation is that many of these depositors will remain with us after Christmas. For many of them never before saw the inside of any bank and may form a useful habit, beside getting better acquainted with the benefits of banking. Mrs. MacMurphy and Deane attended the food sale at Bell's. The sales amounted to a dozen dollars perhaps and the Guild had an easy time in making arrangements.

Sunday, January 31.

Cloudy day and some fall of snow. Three of us went to church by trolley. I assisted in the service and preached the sermon. Deane remained for Sunday school and then went to her home for the rest of the day. Mrs MacMurphy and I came home, we had an oyster stew for dinner. I washed up the dinner dishes. I called on James A. Pollard and got him to sign an application for Trinity Commandery made by Dr. Ralph H. Barker. I attended evening service and choir rehearsal, then had supper at the Rectory with Rev. and Mrs. Haslam.

Monday, February 1.

This has been a busy day. I was at the bank in the forenoon and again all the afternoon. There were two bank meetings to be attended. The first at three and the next at four o'clock. From the last I came away ten minutes past six o'clock. I found Mr. Chase and Mrs. Haslam waiting for me to arrive for supper. They took supper with me and then we played auction bridge until eleven, had refreshments and they have gone. I find Racine, Wis., is very dull, business depressed and slow.

Tuesday, February 2.

A few inches more snow, and pretty cold weather, about zero all day. I was at the bank in the forenoon, did some work there, writing up minutes of meetings. There was no school today on account of bad storm and cold. Mr. Chase was here in the evening to read over his Chapter work in the Royal Arch Deane spent an hour with Mrs. Chase. I collected ten dollars rent of J. P. Whitney. I restored eleven silver dollars to my reserve. These come by eleven months attendance of bank meetings.

Wednesday, February 3.

When I reached the bank, I found the President and Cashier wished me to go to Manchester and take some bonds with me, and borrow \$5,000.00 on them for the present use of the bank. I borrowed at The First National on demand of 5 p. c. In the afternoon I went to the Adams farm and visited Mrs. Adams, giving her \$25.00, her usual monthly allowance. At night I called on Mr. and Mrs. C. B. Chase for a few minutes, bringing home a small table for a card party tomorrow.

Thursday, February 4.

Spent the morning and afternoon at the bank, was at home for all meals. Mrs. Mac-Murphy entertained the Woman's Whist Club in the afternoon. There were 24 present, making six tables, refreshments served. At night I attended visitation of Mt. Nebo Council R. & S. Masters M. I. Grand Masters John F. Webster of Concord was visitor, he appointed me as Grand Marshall. Refreshments were served. He was entertained at the home of Frederick J. Shepard tonight.

Friday, February 5.

Remained at home till half past eleven, had lunch, walked to station, took 12:22 car for Manchester, thence to Concord as representative of the bank. Attended a business meeting of the New Hampshire Bankers Association at the Eagle Hotel at 3:30 p.m. afterward reception and banquet there at 7 p.m., largely attended. Took the 9.07 car back to Manchester thence 11 p.m. to Derry and so home after midnight. Shepard and Bartlett were there to represent the other banks in Derry.

Saturday, February 6.

The bank had some of my forenoon. There was not much to be done. However from the market I brought home two kinds of meat, seeded raisins, camphor and alcohol. Hazel Hosley came down with violin to play at Mrs. Chase's rehearsal. Deane played the piano.. The day has been quite warm, the snow melts, and the streets are very sloppy and the walking most uncomfortable. Mrs. MacMurphy fell and cut a gash in one eyebrow so that she thought best to have Dr. Newell

Sunday, February 7.

Sloppy sidewalks, Deane and I went to church. I assisted at celebration of holy communion and Mr. Haslam preached. Came home and had dinner. At night I walked to church, evening service and choir rehearsal at which I assisted. Afterward I had tea with Rev. and Mrs. Haslam and spent an hour in conversation, came home at ten. I read Journal of Diocesan Convention for an hour and then came writing up this diary and winding of clocks, attending to steam furnace and lights.

Monday, February 8.

Sloppy sidewalks and mild weather. Spent an hour at the bank, at the market, bought mutton chops, lettuce, tomatoes and bread. In the afternoon Mr. Haslam came and we worked at putting partitions of matched boards in the cellar for cold storage. He and Mr. Chase were here for dinner at six and then we played auction bridge till eleven o'clock except that for half an hour I attended a meeting of Special School Board at Mrs. P. M. Campbell's house to close the books for the year.

Tuesday, February 9.

Spent the forenoon at the bank, deposits of Savings Bank seem to be on the increase. The Christmas Club is over 400 and is a source of interest in as much as we expect some of the members to remain with us after the drawing. At night I went to the Gentlemen's Night of the Woman's Guild at Mrs. Packer's house. There were thirteen men in all sat down to one table. We did not get away until half past eleven. I am at home at twelve to write up my diary, attend to steam heater and go to bed. Fine winter weather.

Wednesday, February 10.

An hour at the bank, 422 depositors in the Christmas Club. The Savings Bank has cash on hand \$5,780.00 about \$78,000.00 in total deposits. I came back to Phil How's and bought bacon, beans and lime juice. I am not wearing rubbers today, the snow is packed hard and the temperature below freezing. I paid some school bills for coal and plumbing. Tonight I have a letter from Grace Rogers intimating that she will accept Anna's offer to pay \$1,500.00 out of the farm to settle.

Thursday, February 11.

An hour at the bank this forenoon, came back early, found Mr. Haslam and his son Cummings at work on partitions in my cellar to make cool storage. He remained for lunch, and worked all the afternoon, then he remained for dinner and then he asked Mrs Huntee over to play auction bridge. Mr. Huntee was at the chapter meeting and at the banquet and did not come back till half past twelve. He saw the last game and then Mr Haslam started for home as well as Mr. and Mrs. Huntee.

Friday, February 12.

Sloppy streets, mild weather, partly cloudy. Spent the forenoon at the bank, and most of the afternoon. Saw the selectmen and got an order for balance of the school money in special school district No. 2. Mrs. Haslam worked on my cold storage about all day. He was here for the fish dinner and worked some more in the cellar, he quit about nine o'clock and talked another hour in the library and has just started for home. I am going to retire early.

Saturday, February 13.

Went to John C. Davis, got interest \$5. and of John C. Davis Jr., \$39., paid the latter to bank on his note, came home for lunch. Mr. Haslam here. Telephone from Mrs. Adams, took plumber over to the farm, the water pipes frozen, could do nothing, she had no water in the house and was alone, at night, she telephoned that the dog was gone. I telephoned to Abbott and had an automobile come and take me to the farm, found the dog shut up in the barn. I concluded to stay at the farm.

Sunday, February 14.

Breakfast with Mrs. Adams, grapefruit, rolled oats, toasted bread and butter, sliced baked pork, coffee, milk and sugar. I came home at ten. Mrs. MacMurphy and Deane went to church. I went to evening prayer, attended rehearsal of music for Sunday, went to Rectory, had supper with Rev. and Mrs. Haslam, had some Maryland Rye, at half an hour after supper came home as the church clocks struck ten. I counted three of them. Mild weather, not freezing, yet I had my Siberian Dog Skin overcoat to wear.

Monday, February 15.

I sent Packer's men to the Adams farm to repair the water pipes. I spent some time at the bank, and made some conversation with several people about Town Meeting and the question of starting the Hopkins Home for Aged Women. Mr. Haslam came for dinner of roast beef. We had a good dinner, he remained after to play five hundred in a three hand game with Mrs. MacMurphy and myself. He has just gone home at eleven o'clock. Mild weather today and muddy, sloppy sidewalks.

Tuesday, February 16.

Cloudy and sloppy. I took a book to Packer's home, visited a little, went to woodyard, paid school bill there, went to bank, approved of a mortgage loan. In afternoon copied some letters, and wrote up genealogical notes of explanation as to the family of writers, a lineage back to common stock with my own family. Mrs. MacMurphy was over town after lunch. Heard from Jennie H. McGregor that she will have a boiled dinner tomorrow and wants company, presume I shall go and help to eat the boiled dinner.

Wednesday, February 17.

Mrs. MacMurphy and I attended Ash Wednesday services at the church. Twelve in all were there. I went to the bank, had interview with Braley & Tileston, about history of Horn's Pond. Scobey and Shields. Lawsuit Hood Sons V. Derry Shoe Co., damage claim on ice. Went to the farm and had boiled dinner with Mr. and Mrs. McGregor, played a little, and sang some patriotic songs. "The Watch on the Rhine", etc., came back to bank and then home, had supper and read aloud from National Geographical Magazine, found it very interesting.

Thursday, February 18.

My day was spent principally at the bank. Mrs. McGregor came down to attend G. A. R. meeting W. R. C.. She was at the bank for deposit of money received from School Board. Mrs. MacMurphy was at Whist Club p. m., 24 person in all at Mrs. Moody's house. Thos. Henderson was an orphan, taken by the Meisens near Nevins. Mrs. Powers daughter of Meisen is at the Nevinses. She is a widow and lives in Auburn. Thom. had \$35. sent to him from England. He went over there and had no way to come back.

Friday, February 19.

Spent the morning calling on Tilestons to talk of the lawsuit Hood v. Derry Shoe Co. I afterward went to Horne's Pond and talked with Prof. Campbell and Horne who were surveying the level of the dam. I then looked at a house No. 4 Ash St., where Mrs. Bergeron wants a loan of \$1,000.00. At night Mr. Haslam was here for a fish dinner and to finish the cold storage cupboards in the cellar. He then went to the Todds and had a class preparing for confirmation. He is here again about ten o'clock.

Saturday, February 20.

The usual morning work at the benk and marketing for Sunday. Estelle Keech came up from Bradford Academy and is with Mr. and Mrs. Chase at their home. She and Mrs. Chase called here this afternoon. I gave Mrs. McGregor over the telephone, much information about the Atwoods, our relatives. She seems very interested in genealogical research now, looking up all our dead ancestors, and making extensive notes and she is typewriting it as fast as she obtains facts and traditions.

Sunday, February 21.

Mrs. MacMurphy, Deane and I went to church, also Mrs. Chase and Miss Estelle Keech. I assisted at morning prayer and preached the sermon. Deane went to her home. Mrs. MacMurphy and I came home for clam soup. We went to the cemetery at burial of Arthur Meserve. who died last night of scarlet fever, hence the hasty burial. At night I went to church, assisted at Evening Prayer and at choir practice, had supper with Rev. and Mrs. Haslam and Mrs. Meserve who is entertained there while her house is fumigated.

Monday, February 22.

This holiday is as quiet as the Jewish Sabbath. Mrs. MacMurphy, Mrs. Chase and Estelle Keech went to Manchester in the early morning. Except for short trips to various points, I have been at home. I finished the three fastenings to doors in the cellar. I copied several old letters and wrote one to Emily Hall enclosing the Family Record of her uncle James Gibson, half brother to her mother Angeline Ford Hall. Dorcas Sherburne was the mother of James Gibson and Angeline Ford, the fathers were different.

Tuesday, February 23.

Mrs. MacMurphy accepted invitation to the Littles in East Derry to hear a cello and piano recital. It came off this afternoon and was considered good music. I am still telephoning names and dates to Jennie, and she is making a book. She has 40 pages of type written notes on many lines. She is laying out a pretty large job for herself or somebody. She is lucky to have me for pioneer with all the labors of twenty-five years indexed for ready reference but I am glad to help her.

Wednesday, February 24.

Spent seven or eight hours making index of names mentioned in my earliest book of genealogy. The book was begun forty years ago and is full of stories and ancient auditions, some of which have been abandoned, but there is so much in the book written and cross written in red ink, that an index is necessary to find anything. I began taking account of names for index some years ago, it will take more than one day to finish the alphabetical arrangement and rewrite.

Thursday, February 25.

Wet, muddy, rainy. I practically spent the entire day and evening making my genealogical index and have only just finished writing the names in C. I have made so many of these that I am quite proficient in sorting and arranging names. First the book must be read through to write every name and page. Then the paper is cut up into single names, the alphabetical arrangement made, after that all the names and pages copied again and we have a complete reference to families and names.

Friday, February 26.

Growing colder, firm walking, nearly bare ground. Spent both forenoon and afternoon over town, had to pay semi-annual water bills on my houses, \$22.00 and repairs \$1.75. Mrs. MacMurphy visited Mrs. Saure in East Derry this afternoon. I prepared checks for salaries of teachers, also sent my books to auditor of accounts and to the printer of Derry Annual Report. I am working on my index and have just arrived at the letter G. It looks like one week's work to make this index, there are more than a thousand names.

Saturday, February 27.

Weather change made me put my fur coat on in going to town. I have burned more coal and found it necessary. I have been busy on my index. Mrs. MacMurphy gave lecture on Wagner to the music school of our daughter today at Association parlors. Mr. Haslam called this afternoon while I was alone. Jennie telephoned about Emily S Hall, the James Gibson letter and record. Emily was pleased that I had sent her these Gibson papers. Deane is reading aloud to Mrs. MacMurphy.

Sunday, February 28.

Weather cold but sunshine makes cheerful. Mrs. MacMurphy, Deane and I go to church, service at 10:45 a.m. and I assist. Deane visits her home. Mrs. MacMurphy and I have dinner and spend the afternoon reading. I attend evening service at 6:30 p.m. and choir practice, full choir because the boys are paid off the last Sunday in the month. I went to the rectory and had supper a glass of Maryland Old Rye, talk a while and come home to write this at ten o'clock.

Monday, March 1.

Mr. Haslam's father was John Haslam and his mother was Isabel Greville. I was at the two meetings of the bank from 3 p. m. to 6:15 p. m., the attendance was good and much important business accomplished. There was a primary meeting of a new corporation called The Derry Co operative Building and Loan Association. There were fifteen men interested to hear about it and 28 had signed articles of agreement. Mr. Haslam was here when I came home to have dinner of roast leg of mutton.

Tuesday, March 2.

Telephoned to Bunton, and made engagement to go to Menchester. I was there about 10:10 a. m., had visit, paid premium of \$266.67 for renewal of my bond in guardianship, paid \$5.00 for rent of safety deposit box, came back at 12, had dinner at Chadwick's old place, spent afternoon at the bank, home for our six o'clock dinner, went to East Derry at invitation of Mr. and Mrs. Little to hear concert of cello and piano by them, a few others were invited with us. We are just both home at ten o'clock. Fine full moon and clear sky.

Wednesday, March 3.

Mrs. MacMurphy went to Boston and attended a meeting of the Gen. Hist. Association of Massachusetts in the Marshall P. Wilder Hall. She saw John C. Chase there and spoke with him. She had a cold day, but was comfortable. I spent the day on the index to one of my manuscript books. It is a long, tedious undertaking to handle thousands of names and references. It is impossible to give attention to separating families of the same name, that would require the looking up of every name again under every page of reference.

Thursday, March 4.

Mrs. MacMurphy was at the whist club this afternoon at Mrs. Amos L. Proctor's house I spent another day at my index. It is a long way to conclusion of this undertaking for the book is filled with names Mrs McGregor is still busy on her typewriter and hunting for dates although she is very well satisfied to get names, and build up the family tree. Mr. Floyd S. Eddy of Nashua called with a Master Six Chalmers and spent an hour with us, he then took Mrs. MacMurphy, Deane and Mrs. Huntee on their way to town.

Friday, March 5.

Was at the bank in the forenoon, wrote some letters with check for three telephone bills, paid for automobile ride to Mrs. Adams two weeks ago. After dinner walked to Forest Hill cemetery to see Silas D. Mc-Murphy was probably not buried here, but four stones marked the graves of his wife Eliza, his daughter Katy, Sarah a sister of Eliza and George. About 90 degrees in the shade all day and into the night. In the morning it was too warm to do anything, however I changed a tire on my Chalmers. In the late afternoon took Mrs. MacMurphy and Deane for drive. We went to garage for gasoline and oil, then to laundry, spoke to L. H. Pillsbury, went to farm, picked a few grapes and leaves for pickles. Mrs. Ed.
